INTERIOR SOLUTIONS

ARCHITECTURAL CLOUDS

**BRING ETHEREAL BEAUTY, FORM, AND
FUNCTIONALITY TO YOUR SPACE**

Transform conventional spaces into sophisticated and captivating environments with architectural fabric cloud inspired sculptures from MDC. Available in shapes to evoke cumulus, cirrus, and stratus clouds, these graceful silhouettes add dimension and beauty.

We're proud to offer the most advanced 3D freeform tube bending technology in North America. This technology allows tubing to be shaped with a variable radius to fabricate completely custom and precise shapes. There is no limit to your imagination taking form.

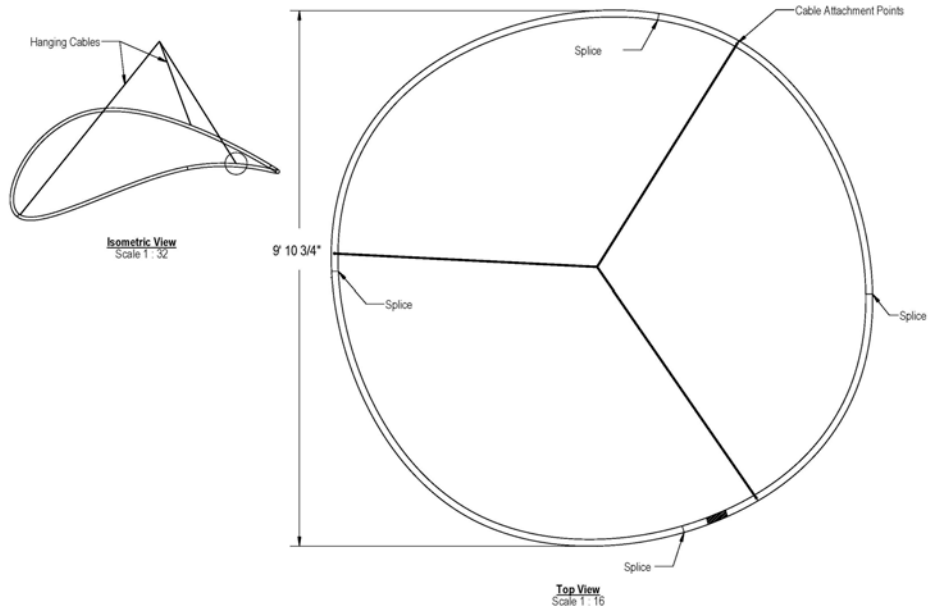

Color Options

Cirrus

Inspired by the artistry in Cirrus cloud formations, this cloud sculpture combines form and function. Enliven any conference room, living room, or a sparse lobby with a cirrus cloud sculpture. The gently curved shape will add a fanciful feature, making an ordinary room interesting and memorable.

Stratus

Stratus clouds are often referred to as windows to the universe. Mimic the rich canvases of stratus clouds by hanging a cloud sculpture from your ceiling. Add a striking dimensional element with the attractive wave shape of the stratus sculpture.

Cumulus

With their unique dimensional shape, cumulus clouds become their own work of art. The cumulus cloud owns the sky, and the cumulus-inspired cloud sculpture will add a unique and attention-grabbing visual element to any space.

Nimbostratus

In an airy and delicate shape, the nimbostratus sculpture was based on the nimbostratus clouds, that are characterized by their downward expansion. We recommend hanging the sculptures in pairs, and allowing the lightweight structures to freely twist and rotate around one another.

Altostratus

The altostratus sculpture, with its gently sloping three petals, will get people talking when they walk into the room! Create your own formations as the clouds can be hung at any angle, or combines with the Cirrus and Stratus clouds to create a striking, skyscape-inspired environment.
