MHE92387 – Eruption of Color, Wall Art

Wall Art

Eruption of Color was created with the use of multiple paint cans being swung repeatedly over the canvas. As each color can be spun back and forth, I moved the canvas so that colors could start to blend and take certain shapes. The concept was to express movement and to create a reaction to the movement. Layer upon layer was added along with touches of gold leaf to add further depth and a certain amount of fluid movement.

Specifications

Height 41.3/4H

Material Canvas / Wood

Width 61.3/4W

Shape Rectangle

Weight 25

Finish Hand Finished

Package Dimensions 67X47X4.1/2
