

## Pave

### Y46290PV – Midnight Oil

#### Vycon Contract

Pavé literally means a setting of small, precious stones placed as closely together as possible on the surface of a metal so that no metal shows through. This resembles the paving done with bricks, stones or tiles. Pavé is inspired by deeply woven textiles. This faceted pattern paves the wall with rows of this diamond-like pattern giving the appearance of a brilliant, encrusted, cobblestone road across the wall. Pavé offers a grand illusion! MDC has distribution rights of this product in select states as detailed below. Illinois, Indiana, Iowa, Kentucky, Michigan, Minnesota, North Dakota, Nebraska, Ohio, Western Pennsylvania, South Dakota, West Virginia and Wisconsin.
